Frutti Di Mare, Fruits of the Sea

Chef Marco Barrila grew up in Messina Sicily. After 20 years working for the rich and famous cooking the highest standards of cuisine, he looked around and said to his love, "we are on Long Island and surrounded by beautiful land and sea that is full of resources." As he began to reminisce of his childhood memories, he realized more that the East End was very similar to his native homeland of Italy and that it was a perfect habitat to create his first friggitoria di pesce. A place where he could express the art of frying seafood typical of the Mediteranean. Using authentic and old recipes and techniques taken from his ancestors, it was then that Chef Marco decided to create a place that everybody could come to enjoy. With the times changing and the evolution in cooking, we can now enjoy the art of frying with advanced oils that are non-trans fat and cholesterol free, making frying light and healthy for our good health. Using all local sourced products, Frutti Di Mare will be the ultimate spot to come and enjoy gourmet seafood with fast food speed. Sit and enjoy, take away or have delivered to your door.
